

Compact design which you can move easily from one place to another

Designed for W3 certification requirements.*

Flexible exhaust arm which allows you to work as you want.

Cartridge filter which can be easily cleanable with compressed air

Engineered for Fume Filtration

The Best Choice for Welding Fume Filtration

General Informations

Filter Type	:	Cartridge
Filter Material	:	%100 Polyester
Filter Quantity	:	1
Filtration Area	:	12 m ²
Filter Efficiency	:	Up to %99*
Filter Dimensions	:	Ø380 - 400 mm
Cleaning Method	:	Manuel
Flexible Arm Dimension	:	Ø160 - 3m Inside Support

Technical Informations

Dimensions	:	570x570x940 mm
Weight	:	110 kg
Engine Power / Cycle	:	1,1 kW - 2.950 c/m
Sound Level	:	72 dB
Fan Capacity	:	2.200 m ³ /h
Suction Capacity	:	1.300 m ³ /h
Max. Operating Temperature	:	80 °C
