

Compact design which you can move easily from one place to another

Designed for W3 certification requirements.\*

2 Flexible Exhaust Arms which allows you to work 2 different point at the same time

Cartridge filter which can be easily cleanable with compressed air

Engineered for Dust Filtration

Dust shelf allows you to clean filtered dust easily.

## General Informations

Filter Type	:	Cartridge
Filter Material	:	%100 Polyester
Filter Quantity	:	2
Filtration Area	:	2 x 10 m <sup>2</sup>
Filter Efficiency	:	Up to 99%*
Filter Dimensions	:	Ø327 - 600 mm
Cleaning Method	:	Jet Pulse
Flexible Arm Dimension	:	Ø160 - 4m Outside Support

## Technical Informations

Dimensions	:	660x810x1530 mm
Weight	:	225 kg
Engine Power / Cycle	:	1,5 kW - 2.950 c/m
Sound Level	:	77 dB
Fan Capacity	:	3.000 m <sup>3</sup> /h
Suction Capacity	:	2 x 1.000 m <sup>3</sup> /h
Max. Operating Temperature	:	80 °C
